

Internal Communication Digest (ICD)

Welcome to the Defence Forces' Internal Communication (IC) Digest.

The Defence Forces Internal Communications Team, will deliver accurate and timely information of interest to our members in order to increase awareness on current and future developments across the organisation. This monthly ICD along with all DF social media platforms and our online 'Member's Area' will allow information of interest to be distributed across the DF. Our Member's Area on www.military.ie, has been launched to allow personnel to access information while off-site. For further information on matters which directly affect you, or if you wish to feature in next month's issue please e-mail feedback@defenceforces.ie.

ARW

The Army Ranger Wing (ARW) successfully completed their first rotation with The United Nations Multidimensional Stabilization Mission in Mali (MINUSMA). The ARW are working in conjunction with over 15,160 personnel, contributing to building a safe and secure environment in Northern Mali. Unit Operators can be seen here on an air-mobile patrol, supported by Romanian IAR 330 Puma helicopters.

Personnel Support Service (PSS) - SafeTALK

SafeTALK is a half day of training that prepares us to identify our colleagues who are at risk of suicide and to connect them to suicide first aid resources.

Trained PSS personnel are delivering SafeTALK training throughout the Defence Forces in 2020. Please take the time to find out from your local PSS office when the next workshop is being delivered in your formation or location – everyone is encouraged to participate, regardless of rank, seniority or length of service. The prevention of suicide is something in which we can all believe, and in which we can all play an important and effective part.

J7 Learning Support

Specific Learning Difficulties (SLD's) refer to a number of disorders which may affect the acquisition, organisation, retention, understanding or use of verbal or nonverbal information.

Having an SLD does not preclude personnel from joining the DF, nor is it incompatible with successful military service. The potential of personnel with SLD's and their capacity to contribute equally effectively to the organisation will be recognised and the Defence Forces will imbue a culture of accepting and supporting personnel with SLD's. This does not however negate the necessity for all members of the DF to reach the required standard of competence in their military performance.

For further information see the DF Learning Support Policy on the J7 IKON page.

Dates for your Diary

03 Mar - Royal Visit
Garden of Remembrance

05 Mar - 1 Bde – Credentials
Áras an Uachtaráin

MOWAG

Office of Emergency Planning and the National Emergency Coordination Centre Says Thank You.

Your hard work makes a big difference. Every year, the OEP co-ordinates the 'Be Winter-Ready' campaign, which can be found by scanning the QR code below. This campaign provides helpful advice and information on preparing for severe weather.

The National Emergency Coordination Centre (NECC) – equipped with robust communications systems and support facilities and managed by the OEP – This is where Ministers, Senior Civil Servants and Military personnel convene to coordinate responses to major natural emergencies.

The contribution on the ground by military personnel deployed in Aid to Civil Authority is a major factor to the successful response to each emergency.
Thank you to our members.
