- a retirement pension,
- a retirement lump sum (gratuity) or death in service lump sum, and
- spouses'/civil partner's and children's contributory pensions.

Pension contributions are payable by the scheme members from their Defence Forces salary towards their retirement and dependants benefits.

In general, Cadets joining the PDF and who are commissioned as Officers may, subject to certain conditions, qualify for payment of retirement benefits from <u>age 50</u> (minimum pension age).

As indicated in **Paragraph 23** below, the mandatory retirement age for Officers varies depending on retiring rank.

Membership of the relevant pension scheme is compulsory. The specific pension scheme that applies to *new entrant* PDF personnel depends primarily on whether the person is joining the Public Service for the first time.

• Single Public Service Pension Scheme

In general, anyone joining pensionable public service employment on or after 1 January 2013 is a member of the **Single Public Service Pension Scheme**. This scheme applies to all military personnel who join the PDF from **1 January 2013 onwards** as first-time new entrants to the public service. Those arrangements are provided under the *Public Service (Single Scheme and Other Provisions) Act 2012* ('the Single Scheme').

Annex B below summarises the Single Scheme pension terms for new entrants joining the PDF, with no previous public service employment history, from 1 January 2013 onwards.

Note: In some limited circumstances, different pension terms may apply for personnel who join the Permanent Defence Force (PDF) from 1 January 2013 onwards who are not first-time new entrants to the Public Service and/or have previously been in the public service. Specific details are available on request from the Department of Defence.

This off-point rate will continue to be paid until incremental progression allows for convergence with the established pay scale rates.

RETIREMENT BENEFITS

Introduction

(a) In general, anyone joining pensionable public service employment on or after 1 January 2013 is a member of the Single Scheme. This Scheme applies to all military personnel who join the Permanent Defence Force (PDF) from 1 January 2013 onwards as first-time new entrants to the Public Service.

The Single Scheme also applies if you are a former pensionable public servant who rejoins the Public Service in a pensionable position on or after 1 January 2013, with a break of more than 26 weeks between public service employments.

Note: In some limited circumstances, different pension terms may apply for personnel who join the Permanent Defence Force (PDF) from 1 January 2013 onwards who are not first-time new entrants to the Public Service and/or have previously been in the public service. Specific details are available on request from the Department of Defence.

Single Scheme – summary of main elements for PDF members

- It is a defined benefit scheme based on Career-Average Earnings.
- Retirement benefits pension and lump sum are primarily based on % of pensionable earnings throughout your public service career as a Single Scheme member.
- PDF members pay a 7.5% employee contribution from salary towards their Single Scheme benefits, as well as an Additional Superannuation Contribution (ASC) – see Notes 1 and 2 below.
- Each year, you build up money amounts on a fast accrual basis towards your Single Scheme retirement benefits. The total of these amounts at retirement, with some adjustments for increases in inflation, determines what your retirement benefits will be.
- Single Scheme retirement benefits are payable immediately on retirement from the PDF only if you serve to the *minimum pension age* of 50, <u>and</u> have the *vesting period of 2 years*¹.
- If you finish employment with the PDF <u>before age 50</u> and have the vesting period, payment of your retirement benefits is normally <u>deferred</u> to the

¹ The *vesting period* for the Single Scheme is 2 years, the minimum length of time you must pay employee contributions into the scheme before becoming eligible for retirement benefits.

- qualifying age for *Contributory State Pension* (CSP)² from the Department of Social Protection.
- Retirement pension (but not lump sum) is *integrated* with the Social Insurance system see paragraph (b) below.
- There is no cap on the length of time over which members can build pension benefits under the Single Scheme.
- Transferring retirement benefits to Single Scheme from other employments:
 - ➤ The option for a member of the Single Scheme to transfer-in benefits from private sector pension schemes is generally available, subject to certain terms and conditions.
 - ➢ If, before joining the Single Scheme, you hold deferred retirement benefits from previous employments under a 'pre-2013' Public Service pension scheme, you cannot transfer those benefits to the Single Scheme. Those benefits remain to be administered under your earlier pre-2013 pension scheme.
 - ➤ If you hold deferred benefits under the Single Scheme from an earlier Single Scheme employment, you do not need to arrange for their "transfer" because it is the same Single Scheme in place across the Public Service.
- There is provision for immediate retirement benefits if compulsorily retired on medical grounds, and for death in service benefits (dependents pensions and death lump sum).
- Following retirement, increases to Single Scheme pension are linked to inflation.

(b) Integration of retirement pension with the Social Insurance system:

New entrants to the Public Service on or after 6 April 1995, including Commissioned Officers in the PDF, are insurable for <u>full PRSI</u>. For this reason, public service retirement (or spouse's / civil partner's) pensions are subject to *integration* with the State Social Insurance system in accordance with standard Public Service arrangements.

This means that a person's entitlement to the range of Social Insurance benefits (including the Contributory State Pension) is taken into account when calculating the amount of retirement pension payable. In an integrated pension scheme, the Contributory State Pension (CSP) is regarded as part of the employee's total pension package. Under standard Public Service arrangements, this integration of retirement pension with the Social Insurance system applies from the time the retirement (or spouse's / civil partner's) pension commences payment.

_

² The current qualifying age for all State Pensions is 66.

This means the retirement pension is adjusted (reduced) from the start by a Social Insurance State Pension *offset*³, regardless of whether the person has reached Contributory State Pension age. Integration applies to retirement pension and also to employee contributions, but not to retirement lump sum.

A Contributory State Pension becomes payable upon reaching the qualifying age. The *Public Service (Single Scheme and Other Provisions) Act 2012* (the 2012 Act), does not provide for the payment of a 'supplementary retirement pension' in the period between Defence Forces mandatory retirement age and State Pension qualifying age.

(c) Employee pension contributions:

- **Note 1** The 7.5% Single Scheme contribution is comprised of 4.2% of *net pensionable remuneration* (which means pensionable remuneration less twice the maximum rate of State Pension Contributory payable from time to time to a person who has no adult or child dependants) <u>plus</u> 3.3% of pensionable remuneration.
- Note 2 Subject to certain exemption thresholds, all Public Servants who are in pensionable employment including members of the PDF are also liable to pay an Additional Superannuation Contribution (ASC). The ASC is separate from the standard employee pension contributions mentioned above. No additional superannuation benefits are earned as a result of the ASC. The ASC applies to pensionable earnings above certain thresholds at different bands and % rates depending on the pension scheme applicable to the member. From 1 January 2020, the ASC bands / rates are as follows:

Additional Superannuation Contributions
All Public Servants who are members of the Single Public Service Pension Scheme
First €34,500 of pensionable earnings – exempt
Next €25,500 @ 3.33%
Balance @ 3.5%

(d) Declarations:

Under the *Public Service (Single Scheme and Other Provisions) Act 2012* (the 2012 Act), candidates are required to declare:

- any prior Public Service employment, or
- any pre-existing entitlements to a Public Service retirement benefit (whether already paid, in payment or deferred), or
- any existing remuneration from any other Public Service employment, or

_

³ The current value of the Contributory State Pension (CSP) reduction is €265.30 per week / €13,795.6 Annually

•	any such employment in which they received a payment-in-lieu of pension for that service.

(e) Pension abatement:

If a person was employed previously in the Public Service and is in receipt of a pension from the Public Service, the 2012 Act provides for the *abatement* (i.e. reduction / suspension) of any Public Service pension on re-employment within the Public Service, even where the new employment is in a different area of the Public Service. The outcome will depend on factors such as a person's ongoing overall earnings from the Public Service by way of salary plus pension.

PHYSICAL FITNESS ETC.

PHYSICAL FITNESS TEST

The physical fitness assessment is designed to test the candidate's current level of physical fitness and his/her capacity to undergo the rigours of military training. It is composed of two aspects:

- a. Components of physical fitness, consisting of body composition assessment.
- b. Local muscular endurance and aerobic endurance

FORMAT OF THE DEFENCE FORCES INDUCTION FITNESS TEST (DFIFT)

BODY COMPOSITION ASSESSMENT

This assesses the candidate's body composition. The candidate will undergo a body mass index (BMI) test and an assessment of body fat % will be assessed using skin calliper test (if necessary). Candidates who score > or equal to 30 on the BMI test must undergo a skinfold calliper test. Candidates who score in excess of 70mm (Males) or 80mm (Females) on the skinfold calliper test will <u>not</u> be permitted to continue with the test.

All tests are conducted in sports gear. Candidates are advised to bring the following should they be requested to attend: tracksuit, shorts, singlet or t-shirt, training shoes, towel, and wash gear etc.

Candidates who wish to prepare for the above tests should do so under the guidance of a qualified instructor.

AEROBIC ENDURANCE

Candidates will be required to run one and a half miles within the time limit below: (This is a pass or fail test)

Remarks	Males	Females	Distance
Green: test pass	<11 mins 40 sec	<13 mins 10 sec	2.4km
Amber: test pass	<12 mins 45 secs	<13 mins 50 sec	2.4km
Red: test fail	>12 mins 45 secs	>13 mins 50 sec	2.4km

A 'Green' grading reflects the candidate passing the DFIFT and results in immediate selection for induction.

An 'Amber' grading reflects a reduced aerobic capacity. The organisation <u>may</u> select these personnel for induction subject to vacancies. If an applicant achieves an amber pass they will be required to undergo additional fitness training during the induction training period. Cadets must pass the Defence Force's fitness test to be finally approved.

A 'Red' grading reflects the candidate has failed the DFIFT.

An applicant who achieves an "amber" result in their aerobic capacity (run) test may be considered for induction into the Defence Forces, should the HR demand exist. Applicants inducted under these circumstances will be required to pass the DF Fitness Test (part 2/run) during stage 1 of the Cadet Training Course (initial 12 weeks).

LOCAL MUSCULAR ENDURANCE

This will be assessed using push-ups and sit-ups. The time allowed is 60 seconds (This is a pass or fail test).

	Males	Females
Push-ups: (Minimum requirement)	20	20 (modified)
Sit-ups: (Minimum requirement)	20	20

If a candidate fails to meet any of the above minimum requirements, they will not be permitted to proceed to the next stage of the competition.
