The Naval Service is based in Haulbowline, Cobh, Co. Cork. It is a multi-tasked organisation operating a fleet of eight ships. The fleet is equipped with state of the art machinery, weapons, communications, and navigation systems. The Naval Service took delivery of three new Offshore Patrol Vessels, LÉ Samuel Beckett, LÉ James Joyce and LÉ William Butler Yeats in recent years. A fourth ship, George Bernard Shaw, was commissioned in 2019. All four new ships are of similar specification, which is at the leading edge of marine technology.

The Naval Service offers three types of Cadetships open to all applicants who meet the educational and general criteria, namely, an Operations Branch Cadetship, a Marine Engineering Branch Cadetship and an Electrical Engineer Cadetship. Candidates may apply for any or all classes of Cadetship.
The Operations Branch Cadet

Officers of the Operations Branch of the Naval Service are responsible for the efficient running of the ship. It is only from within this Branch that an officer may become Captain of a ship. The Operations Branch Officer’s responsibilities include Bridge Watch keeping, where they are responsible for the safe navigation of the ship and the safety of the ships company along with the weapons and communications systems on-board. Operations Branch Officers also lead boarding teams in fishery protection and anti-drug running boarding operations and are therefore prime leaders and motivators of the ships company.

The Operations Branch Cadet will undergo a course of training of approximately twenty-one months duration, divided into different stages. Initial training takes place in the Cadet School, Military College, DFTC, Curragh Camp and is of approximately three months duration. Subsequent training takes place in the Naval Base, Haulbowline, Co Cork and on board ship. This training encompasses both the theory and practical application of the skills required for the officer to take their place as a fully functional member of the ships command team. Subjects covered include Navigation, Seamanship, Gunnery, Leadership and Management.

In the second year, the Cadet will commence studies at the National Maritime College Ireland (NMCI) in Ringaskiddy, Cork for the award of a Level 7 Degree in Nautical Science. NMCI is a partnership between the Cork Institute of Technology and the Naval Service.

An Operations Branch Cadet shall, on successful completion of the relevant course of training and provided that the Cadet’s medical classification is not lower than – year of birth – 11 – 311 – as defined in Defence Force Regulations A.12, be commissioned on a 3 year Short Service Commission in the rank of Ensign or Sub-Lieutenant in accordance with paragraph 17 below. The fully trained Junior Officer spends the following years on sea/shore rotations. The primary sea duties involve watchkeeping and navigation while shore duties involve training or administrative appointments. The Naval Service Officer can avail of opportunities of further education as well as participating in professional sub-specialisation courses such as Tactical and Naval Warfare Courses at home and abroad.

The Marine Engineering Branch Cadet

The Marine Engineering Branch Cadet will be trained to a level whereby they can fill an appointment as a ships’ Marine Engineering Officer. The Engineering Officer is responsible for everything that keeps a ship afloat, moving and habitable. This includes the hull and general structures of the ship, its main engines and all auxiliary machinery, the main electrical generators, the electrical distribution system, the air conditioning, ventilation, heating systems and cold rooms as well as all fuel and
water systems. It also includes the computer systems for communications, navigation and weapons control systems.

The Marine Engineering Branch Cadet will undergo a course of training of approximately twenty-one months duration. Initial training takes place in the Cadet School, Military College, DFTC, Curragh Camp and is of approximately three months duration. This initial training is similar to, and shared with, Operations Branch Cadets. Subsequent training takes place in the Naval Base, Haulbowline, Co Cork and on board ship. This training encompasses both the theory and practical application of the skills required for the officer to take their place as a fully functional member of the ships command team. Subjects covered include Navigation, Seamanship, Gunnery, Leadership and Management.

In the second year, the Cadet will commence studies at the National Maritime College Ireland (NMCI) in Ringaskiddy, Cork for award of a Level 7 Degree in Marine Engineering. NMCI is a partnership between the Cork Institute of Technology and the Naval Service.

A Marine Engineering Branch Cadet shall, on successful completion of the relevant course of training and provided that the Cadet’s medical classification is not lower than – year of birth – 11 – 311 – as defined in Defence Force Regulations A.12, be commissioned on a 3 year Short Service Commission in the rank of Ensign or Sub-Lieutenant in accordance with paragraph 17 below. After commissioning, training continues both at sea and ashore until the Officer is fully qualified to take an appointment as a Marine Engineer Officer on-board ship.

When fully qualified, as a Marine Engineering Branch Officer, they shall, subject to satisfying certain criteria and on being recommended by the Flag Officer Commanding the Naval Service and the Chief of Staff, be offered a full Commission without limitation as to time.

The fully trained Junior Officer spends the following years on sea/shore rotations. When at sea, they will be appointed as the ships Engineering Officer, while shore duties involve training or technical/administrative appointments. The Engineering Officer can avail of opportunities of further education as well as participating in a range of specialist courses applicable to the Marine Engineering profession at home or abroad.

**The Electrical Engineering Cadet**

During attendance at college, Cadets/Officers will normally be accommodated in Military Barracks and will be in receipt of normal pay and allowances.

Personnel of the Naval Service, other than those who already hold a relevant third level qualification in Nautical Science or Engineering, and who are considered
suitable may, subject to the exigencies of the service and the requirements of the Defence Forces, be assigned to a course of study leading to a degree at the Cork Institute of Technology or a course of study leading to a degree at some other third level college of education, as approved by the Director of Defence Forces Training & Education.

In addition, Commissioned Officers who undertake certain courses, which are undertaken at public expense, will be required to subscribe to an undertaking (or undertakings), copies of which are available on request, that before leaving the Permanent Defence Force voluntarily at any time after they have commenced the course and before they have served in the Defence Forces for a minimum number of years reckoned from the date of completion of their third level training, they will refund the cost of such training to the Minister for Defence including the cost of pay and allowances paid to them during the period of attendance at the course.

Payment of the amount involved, including the cost of any pay and allowances paid to them during the attendance at the course, must be made in full and up-front i.e. before the actual date of their retirement. However, in every case, the granting of permission to a Commissioned Officer to retire or resign from the Defence Forces is a matter for the appropriate authority in accordance with the relevant provisions of the Defence Act.

19. PAY, ALLOWANCES & PRSI

a. Pay and Allowances

See Annex A.

It should be noted that the payment including the rate of payment of these allowances are subject to review and adjustment on an ongoing basis under Government policy.

b. On enlistment to the PDF (see paragraph 12) Cadets are liable to pay PRSI contributions at the Class H rate. On appointment as an Officer (see paragraph 17), they pay PRSI at the Class A rate. In both cases, they are covered for the range of benefits under the Social Insurance code including the State Pension (Contributory), subject to meeting the qualifying criteria under the Social Welfare Acts – see paragraph 20 and Annex B.

c. Method of Pay

Cadets and Officers are paid on a monthly basis by means of electronic funds transfer to a designated financial institution.

20. RETIREMENT BENEFITS

This should be read in conjunction with Paragraph 19 (Pay, Allowances and PRSI) and Annex A and B.

Members of the Permanent Defence Force (PDF) may qualify for retirement benefits (also called superannuation benefits), provided they meet certain terms and
conditions. The superannuation arrangements for members of the PDF are defined benefit pension schemes.

The main benefits are:

- a retirement pension,
- a retirement lump sum (gratuity) or death in service lump sum, and
- spouses’/civil partner’s and children’s contributory pensions.

Pension contributions are payable by the scheme members from their Defence Forces salary towards their retirement and dependants benefits.

In general, Cadets joining the PDF and who are commissioned as Officers may, subject to certain conditions, qualify for payment of retirement benefits from age 50 (minimum pension age).

As indicated in Paragraph 23 below, the mandatory retirement age for Officers varies depending on retiring rank.

Membership of the relevant pension scheme is compulsory. The specific pension scheme that applies to new entrant PDF personnel depends primarily on whether the person is joining the Public Service for the first time.

**Single Public Service Pension Scheme**

In general, anyone joining pensionable public service employment on or after 1 January 2013 is a member of the Single Public Service Pension Scheme. This scheme applies to all military personnel who join the PDF from 1 January 2013 onwards as first-time new entrants to the public service. Those arrangements are provided under the Public Service (Single Scheme and Other Provisions) Act 2012 (‘the Single Scheme’).

Annex B below summarises the Single Scheme pension terms for new entrants joining the PDF, with no previous public service employment history, from 1 January 2013 onwards.

21 **ANNUAL LEAVE AND HOLIDAYS**

Annual leave to the extent of 31 days may be granted to Cadets and Junior Officers.

Officers, non-commissioned officers and seamen of the Naval Service serving afloat may be granted annual leave for periods not exceeding 43 days in the aggregate in any one leave year.

Senior Officers (Commandant and higher ranks) may be granted 43 days leave.

The provision of annual leave must be in accordance with the provisions of Defence Force Regulation (DFR) A.11.

It should be noted that this annual leave provision is currently calculated on a 7 day basis. Leave entitlements may be subject to review and adjustment.
22. SICK LEAVE

Sick Leave may be granted in accordance with the provisions of Defence Force Regulation A.12 (Medical Treatment) and Defence Forces Regulation S.3 (Pay and Allowances).

It should be noted that the sick leave provision is currently being reviewed as part of a wider review and standardisation of sick leave in the Public Service generally and in that regard may be subject to adjustment on an ongoing basis in accordance with changes applicable across the Public Service as per Government policy.

23. PROMOTION AND RETIREMENT

Subject to the terms of Defence Forces Regulations, Officers are eligible for consideration for promotion through the commissioned ranks. The age for retirement of Officers ranges from 47 years of age (Second Lieutenant/Ensign) to 63 years of age (Lieutenant General), depending on rank.

24. UNIFORMS AND ACCOMMODATION

A Cadet is issued uniforms and accessories. Commissioned Officers receive a grant, in accordance with the scales laid down, to assist towards the cost of providing themselves with uniform and equipment. An allowance is currently paid to a Commissioned Officer towards the purpose of replenishing their kit.

It should be noted that the allowance provided for on commissioning, shall be paid on the basis of a submission by the officer of certified receipts up to but not exceeding the value of the initial allowance to the Finance Branch, Department of Defence, Renmore, Galway. The initial allowance is exempt from taxation, while the replenishment allowance paid in subsequent years is subject to taxation under the taxation arrangements in place at the time, currently 40% is taxable and 60% not taxable.

A Cadet is entitled to accommodation and meals without charge subject to the terms of Defence Forces Regulations. Single Living-In Commissioned Officers, are
provided with official accommodation, in respect of which a deduction may be made from pay.

25. **MEDICAL ATTENDANCE AND HOSPITAL TREATMENT**

Primary health care i.e. medical attendance at and treatment by a doctor or primary care medical team in the Defence Forces, including e.g. physiotherapy, routine dental treatment etc., some limited in-house secondary care and the provision of medication prescribed by a Medical Officer, are provided without charge, subject to any limitations as required by law.

In accordance with Defence Force Administrative Instructions, cadets who develop a medical condition preventing them from continuing or competing their cadetship, may be referred by the Defence Forces Medical Officer or the attending doctor for secondary treatment as a private patient to a consultant or for private treatment in hospital subject to financial sanction and any other limitations as required by law. The medical service provided to members of the Defence Forces is by nature an occupational medical service and as such, services such as cosmetic surgery (where such does not arise from occupational injury), etc. are not provided.

26. **PAY AND ALLOWANCE - BENEFIT IN KIND**

The tax status and taxation of any benefit, payment or allowance paid to members of the Defence Forces is a matter between the individual taxpayer and the Revenue Commissioners and must be disclosed by the individual to the Revenue Commissioners. The Department will not be liable for the financial impact, positive or negative, of any change in the tax status of any current payment, allowance or benefit paid or made available to members of the Defence Forces, or any determination of their tax status, as may be directed by the Revenue Commissioners from time to time.
NOTE

RETIREMENT BENEFITS

Introduction

(a) In general, anyone joining pensionable public service employment on or after 1 January 2013 is a member of the Single Scheme. This Scheme applies to all military personnel who join the Permanent Defence Force (PDF) from 1 January 2013 onwards as first-time new entrants to the Public Service.

The Single Scheme also applies if you are a former pensionable public servant who re-joins the Public Service in a pensionable position on or after 1 January 2013, with a break of more than 26 weeks between public service employments.

Single Scheme – summary of main elements for PDF members

- It is a defined benefit scheme based on Career-Average Earnings.

- Retirement benefits – pension and lump sum – are primarily based on % of pensionable earnings throughout your public service career as a Single Scheme member.

- PDF members pay a 7.5% employee contribution from salary towards their Single Scheme benefits, as well as an Additional Superannuation Contribution (ASC) – see Notes 1 and 2 below.

- Each year, you build up money amounts on a fast accrual basis towards your Single Scheme retirement benefits. The total of these amounts at retirement, with some adjustments for increases in inflation, determines what your retirement benefits will be.

- Single Scheme retirement benefits are payable immediately on retirement from the PDF only if you serve to the minimum pension age of 50, and have the vesting period of 2 years².

- If you finish employment with the PDF before age 50 and have the vesting period, payment of your retirement benefits is normally deferred to age 68. (Age 68 is the qualifying age for Contributory State Pension (CSP) from the Department of Employment Affairs and Social Protection, for anyone born since 1961).

- Retirement pension (but not lump sum) is integrated with the Social Insurance system – see paragraph (b) below.

² The vesting period for the Single Scheme is 2 years, the minimum length of time you must pay employee contributions into the scheme before becoming eligible for retirement benefits. The vesting period for personnel who joined the PDF between 1 April 2004 and 31 December 2012 is also 2 years.
• There is no cap on the length of time over which members can build pension benefits under the Single Scheme.

• Transferring retirement benefits to Single Scheme from other employments:
  
  ➢ The option for a member of the Single Scheme to transfer-in benefits from private sector pension schemes will be generally available, subject to certain terms and conditions.

  ➢ If, before joining the Single Scheme, you hold deferred retirement benefits from previous employments under a ‘pre-2013’ Public Service pension scheme, you cannot transfer those benefits to the Single Scheme. Those benefits remain to be administered under your earlier pre-2013 pension scheme.

  ➢ If you hold deferred benefits under the Single Scheme from an earlier Single Scheme employment, you do not need to arrange for their “transfer” because it is the same Single Scheme in place across the Public Service.

• There is provision for immediate retirement benefits if compulsorily retired on medical grounds, and for death in service benefits (dependents pensions and death lump sum).

• Following retirement, increases to Single Scheme pension are linked to inflation.

(b) **Integration of retirement pension with the Social Insurance system:**

New entrants to the Public Service on or after 6 April 1995, including Commissioned Officers in the PDF, are insurable for full PRSI. For this reason, public service retirement (or spouse’s / civil partner’s) pensions are subject to integration with the State Social Insurance system in accordance with standard Public Service arrangements.

This means that a person’s entitlement to the range of Social Insurance benefits (including the Contributory State Pension) is taken into account when calculating the amount of retirement pension payable. In an integrated pension scheme, the Contributory State Pension (CSP) is regarded as part of the employee’s total pension package. Under standard Public Service arrangements, this integration of retirement pension with the Social Insurance system applies from the time the retirement (or spouse’s / civil partner’s) pension commences payment.

This means the retirement pension is adjusted (reduced) from the start by a Social Insurance State Pension offset, regardless of whether the person has reached Contributory State Pension age (66-68). Integration applies to retirement pension and also to employee contributions, but not to retirement lump sum.

A Contributory State Pension (CSP) becomes payable upon reaching the qualifying age (referenced above). The **Public Service (Single Scheme and Other Provisions) Act 2012** (the 2012 Act), does not currently provide for the payment of a ‘supplementary retirement pension’ in the period between Defence Forces mandatory retirement age and State Pension age.
(b) Employee pension contributions:

- **Note 1** – The 7.5% Single Scheme contribution is comprised of 4.2% of net pensionable remuneration (which means pensionable remuneration less twice the maximum rate of State Pension Contributory payable from time to time to a person who has no adult or child dependants) plus 3.3% of pensionable remuneration.

- **Note 2** – Subject to certain exemption thresholds, all Public Servants who are in pensionable employment – including members of the PDF – are also liable to pay an Additional Superannuation Contribution (ASC). The ASC is separate from the standard employee pension contributions mentioned above. No additional superannuation benefits are earned as a result of the ASC. The ASC applies to pensionable earnings above certain thresholds at different bands and % rates depending on the pension scheme applicable to the member. From 1 January 2020, the ASC bands / rates are as follows:

<table>
<thead>
<tr>
<th>Additional Superannuation Contributions</th>
</tr>
</thead>
<tbody>
<tr>
<td>All Public Servants who are members of the Single Public Service Pension Scheme</td>
</tr>
<tr>
<td>First €34,500 of pensionable earnings – exempt</td>
</tr>
<tr>
<td>Next €25,500 @ 3.33%</td>
</tr>
<tr>
<td>Balance @ 3.5%</td>
</tr>
</tbody>
</table>

(c) Declarations:

Under the *Public Service (Single Scheme and Other Provisions) Act 2012* (the 2012 Act), candidates are required to declare:

- any prior Public Service employment, or
- any pre-existing entitlements to a Public Service retirement benefit (whether already paid, in payment or deferred), or
- any existing remuneration from any other Public Service employment, or
- any such employment in which they received a payment-in-lieu of pension for that service.

(d) Pension abatement:

If a person was employed previously in the Public Service and is in receipt of a pension from the Public Service, the 2012 Act provides for the abatement (i.e. reduction / suspension) of any Public Service pension on re-employment within the Public Service, even where the new employment is in a different area of the Public Service. The outcome will depend on factors such as a person’s ongoing overall earnings from the Public Service by way of salary plus pension.
(e) Further information:

Further information on pension arrangements for Defence Forces members of the Single Pension Scheme can be found on the Department of Defence website at https://www.gov.ie/en/collection/2a3969-pension-schemes/

The physical fitness assessment is designed to test the candidate’s current level of physical fitness and his/her capacity to undergo the rigours of military training. It is composed of two aspects:

a. Aerobic endurance
   Local muscular endurance

b. Components of physical fitness, consisting of body fat assessment, hand grip strength and flexibility.

FORMAT OF TEST

Aerobic endurance
Candidates will be required to run one and a half miles within the time limit below: (This is a pass or fail test)

Points to Note

This Programme is a suggested training programme. You are under no obligation to undertake it. You do so at your own risk.

a. This programme presupposes a certain level of fitness. If in doubt talk to your GP.
b. Step 1-Invest in proper training equipment particularly a good pair of runners.
c. Step 2-Talk to a Defence Forces PTI (Physical Training Instructor) or a fitness expert. Get them to help you to tailor this generic programme to suit your ability/lifestyle. Get them to help you with your technique with Push ups and Sit Ups. Videos of correct push ups and sit up technique are available online at www.military.ie
d. Step 3-Mark out a safe route of 1.5 miles/2.4km.
e. Step 4-Get a stopwatch to time your runs.
f. Step 5-Set your goals.
   o Run-11 min 40 sec Males/13 min 10 sec Females.
   o Push Ups-20 Repetitions in One Minute.
   o Sit Ups-20 Repetitions in One Minute.
g. Warm Up
   o Warm up properly before every session.
   o Exercises: Jogging, fast feet, high heels, high knees and high knee skip.
   o Try to keep warm up specific to the activity you are doing.

h. Heart Rate Intensity: To achieve the required intensity of exercise use the simple formula.
   o Example.
      ▪ 220- your age =220-20=200.
      ▪ 75% of 200 = 150 Beats per minute.
      ▪ This is your target Heart Rate to improve your Cardio-Vascular Endurance)*(Required Intensity).
      ▪ Check your HR pre and post exercise.

i. Cool Down:
   o Just a general reduction in pace to decrease blood flow to the activated muscles.

j. Stretching:
   o Stretching is very important pre and post exercise.
   o Stretch all major muscle groups and show particular attention to the muscles that are involved in the activity.

k. On the Day:
   o Arrive on time at the test centre.
   o Eat 2/3 Hours prior to the Test.
   o Bring a snack to the Test Centre to stay refuelled.
   o STAY HYDRATED. Sip water all day.

l. If you are in any doubt about your fitness levels to undertake this programme, see your Doctor first.
